"Nil falsi audeam, nil veri non audeam dicere."—*Cicero.*

FRIDAY MARCH 6, 1868.

EDITOR'S TABLE,

PROBABLY there is nothing more wanted in this province and the B Oriental than public market or fair days. In Europe and the United States there are fair days in every county twice or three times a month. Buyers know when and where to go to chase their stock, and sellers drive their animals to fa fair, in preference to selling at their own farm.

Owing to the want of fairs in this country, both buyers and sellers experience the greatest inconvenience, and oftentimes lose, as purchasers are obliged to go galloping through the country, from estancia to estancia, or trust to the representations of brokers; and sellers frequently sell under price, from utter ignorance of the current rates. We are glad to see that some parties are putting their shoulders to the wheel, and trying to introduce European customs among our farmers. We call attention to Mr Pengnes' advertisement in another column. He purposes holding a fair, or public sale of his rams on the 20th inst. The rams will be all shut in, and parties can pick, choose, and bargain as much as they like. We hope it will be well attended, and the same plan adopted in Buenos Ayres.

The steamboat men on the river complain greatly of their employers' wages as high, and so dear, passengers so scarce, etc, that it is a losing business both for master, owner and agent. The Pampero has done a nice business off the English bank: we learn the salvage alone which she has earned will amount to £5000. This is what may be termed a hit:

The people in Montevideo must be good arithmeticians, to be able to comprehend the new currency system. Never, since the days of Lycurgus, who sought to abolish currency altogether, was there such a home copathic or infinitesimal currency established. The object, however, is quite transparent, as the paper money in Montevideo is convertible, and payable in specie on demand. The only plan to escape this law was to adopt the present system. The holder of one of these new bills goes to the bank, and demands payment in gold; he loses 4 for 50 centimes, 20 of which are equal to a doubloon Now, as the doubloon is the 98 and a large fraction of an ounce, the man must be bright indeed who, in six or seven hours, can make out how much gold he should receive for a hundred of this paper. Foreigners formerly found some difficulty in comprehending the Oriental currency, but even the natives themselves are done now. The doubloon has a fixed value, but the ounce fluctuates; the consequence is that every man going to the bank for specie must take a slate and pencil with him. The most amusing scenes imaginable occur when the unhappy customer gets puzzled in his compound fractions; before he has done his sum, the hour for closing the bank arrives, and our friend is obliged to depart, not knowing whether his statement or the clerk's is correct.

The Belgrano judge seems to be eternally in hot water, about the conduct of his police. Only the other day one of these fellows actually took in charge a lady's carriage, for a paltry fine of 60 dollars. Sr Oliver, when he heard of the matter, returned the money, and doubt, and apologised to the lady; but perhaps the same policeman is in power still.

The Tribuna has another complaint of a sort of garotting character, at the turnpike house. Truly the insolence of these officials is insupportable, and Mr Oliver ought to see and get proper men as toll and fine collectors.

The *Tribuna* also calls attention to the English dentistry mart, 61 calle Cuyo rentes, and complains of Mr Hastler shutting so early. We do not profess to know the business hours of the establishment; but we take this opportunity to testify to the superior class of goods on sale at this house.

A new cure for foot rot and scab has been introduced and farmers who have tried it say it is the very best cure they have ever seen; it is called Calvert's Phenyline and Terrene.

An ink manufactury has been established in town, office 50 calle Mayo the ink is of superior quality and fifty per cent cheaper than what is sold elsewhere.

A sad accident occurred at an English gentleman's quinta last Sunday; owing to the recklessness of the cook, who locked her children up in a room where they had matches to play with, the clothes of one took fire and before help could be obtained, the child was enveloped in a blaze, she died immediately from the effects.

Mr. Wheelright is going to Montevideo for a few days.

The fare p r Rail to Flores on Holidays is 6 dollars first and 4 second class.

A carriage with 2 out-riders and 4 live ostriches drove down calle Can 14 on Sunday, Wednesday, and drew up at the new hotel.

In the new camp Cattles are 2 ft. 6 in. high, and the lambing has commenced.

The station at the end of the Ensenada is put up, and trains will probably run out there on Sunday.

The sheep and land brokers are complaining of the sad state of their business, owing to Gov. Saavedra's doubling the price of Gov. land. No estancias are bought or sold any longer.

There are 119 leagues of land in Entre Rios, which a gentleman offers to rent on long leases, to 4 to suit farmers, at the rate of $ 5,000 mje per league.

THE SPECIE CRISIS.

We publish the following document, signed by a majority of the principal mercantile firms of this city, for the admission of foreign coin:—

On Wednesday considerable disputes existed on the Bolsa and elsewhere, respecting these coins, and until Government takes some action in the matter, many parties will refuse to receive sovereigns, etc, in payment of ounces.

The working of this foreign coin system is not yet thoroughly understood. Many parties complain that instead of receiving ounces, they are compelled to take Brazilian gold, which suffers a serious discount.

If, instead of these private arrangements got up between merchants, a law was passed, legalising the tender, much difficulty would be avoided, and the foreign gold *then* would have a very beneficial influence on our market; but, as at present situated, it does more injury than anything else.

The undersigned merchants of Buenos Aires, in consequence of the regulation of the Bank, to admit foreign coins (approved of by the Government) oblige themselves from this day to receive and pay the following coins for the agreed value, as follows.

Gold Ounces	16 patacones.
" Sovereigns	4 90 do
" 20 reis	11 do
" U. S. Eagle	19 do
" Spanish doubloon	5 do
" Napoleon 20 francs	3 90 do
" Chilian Condor	9 26 do
" Sardinian 20 lire	3 90 do

And their subdivisions for their relative value.

B. Ayres 11th February.

TERRIBLE FIRE IN CALLE MAYO.

On Wednesday night, at half-past 11 o'clock, the cigar shop known as the Cigarreria del Puerto, situated at the corner of calles Cangallo and Mayo took fire, owing to some unhappy accident in the back premises, and the property, valued at $90,000, was totally destroyed.

When the place was discovered to be on fire, orders were sent to have the fire-bell rung; but no one was in attendance, and the bell, not being self-acting, would not ring of itself. After a while, it chimed out, but in the meanwhile all the cigars, furniture, etc, were burnt to ashes.

A few garden squirts and tin buckets were got by the neighbours, and shortly before the flames died out, the municipality engine came on the ground. It was in beautiful condition, and people almost forgot the flames in admiring the engine. The vigilantes displayed the greatest activity in running round the corner with tin buckets.

As a matter of course, the whole place was burned to the ground, and there is not for the praiseworthy efforts of the neighbours, some of the occupants would have perished.

It is a sad lesson for us all. Here is a house on the very bank of the river, in a populous city, at an hour when the shops are hardly shut, burnt down before our eyes. We have called attention, over and over again, to the great want of a fire brigade in this city; but the Municipality will do nothing. If the Custom house took fire this night, what is there to save it? Half there been an engine placed at the river, and a hose run up the street, the cigar maker's premises might have been saved. But, somehow, we are always "a day after the fair," in this country.

MONTEVIDEO.

THE new Press statute is the object of continued discussion, although the Orientals might as well copy our enactment, which is very good if an honest jury can be obtained. The passport law, we hope, will be repealed, but not on Dr. Bigattino's argument that Spain is the most backward of nations. A new breed of silkworms arrived per *Saintong*: they are from China and Japan. Two youths, named Fernandez and Leroux, invested on Monday with the cap & gown of L.L.D. seven others received the diploma of Bachelor. In the prison diary of the 1st inst, we find Patrick Lyon, Englishman, for disorder; in the mortuary table Fernard O'Neil, Irishman, for dis-. The Ocean Circus is playing with great success. The sentence in favor of Col. Agricio for damages by libel has been reversed, on appeal. The 1st batt of Rifles left for Salto to garrison that town. An Italian named Guerrero stabbed his wife, at Cordon, and escaped justice.

On Monday evening a Frenchman named George Lutz was drowned he was dragged out in an expiring state and lingered only a few hours. The bull fight of Sunday was very poorly attended notwithstanding its charitable object.

The *Siglo* gives us news from the documents. In Mercedes the famous Italian consul, Dr. Wonner, has been superseded. The town was illuminated in honor of the "Treinta tres" revolution, on the 26th ult. The church of Fray Bentos is almost finished, some new diligences are going to be started: there are six foreign vessels in the port. Salto is thriving, great purchases of cattle have been made, and the new mole will be commenced this month. In Yaguarete, the son of Dn. Fermin Rodriguez was assassinated. The inhabitants of Gualeguay spent a merry carnival, dancing &c.

An Italian attempted to drown himself in Montevideo, but the neighbours made him change his mind: another who was drunk fell into the water, and was happily rescued. Another elopement after Carnival has taken place, the Helen being a maiden of only 12 summers.

The American Government has communicated to its consul in Uruguay that it has forwarded a gold chronometer and £40 to capt. Picard of the Armand Andre, Bordeaux, in recognition of his having generously re-cued 28 American sailors from a watery grave near the mouth of the River Plate.

The *Siglo* publishes its packet-review in French and Spanish. The American barque "Burlington" from Cardiff brought 726 tons coal. The brigantine "Salvador" has been released from quarantine. The "Arethusa" brings a cargo of salt to Roger bros. of Buenos Ayres.

ROSARIO.

We have received dates up to the 4th inst. The *Diario* and *Ferro carril* have long articles on the railway, but no fresh news, except a statement that some capitalists in Buenos Aires offer to take 1,500 shares on condition that payment will be accepted in National credits, at a discount of 20%.

CORDOBA.

The *Eco* of Feb. 25th has a severe critique on the duel of Messrs Chassaing and Mamillo, stating that however these gentlemen may boast of valor they certainly lack common sense and civilization. Col. Olascoaga has presented, through Gen. Paunero, to the President a splendid map of the republic. Dr. Rawson was anxiously expected and the railway is looked on as indispensable for the peace and advancement of the interior.

THE ALABAMA.

CAPTURE OF A CALIFORNIAN STEAMER.

The Ariel, from Aspinwall, A. G. commanding, with the mails and passengers from California, arrived last night. The Ariel sailed from Aspinwall on the 16th instant, at 11 a.m., touched at Key West on the 22nd, sailed again next day at 6 a.m., and arrived here at 11 p.m. The Ariel was captured on her outward passage by the rebel steamer Alabama, under the following circumstances:—On the 7th inst., at 1.30 p.m., when rounding Cape Maysi, the eastern point of Cuba, we saw a vessel about four miles to the westward, close under the high land of Cuba, hull-down, and under canvas. As there was nothing in her appearance indicating her to be a steamer her smoke pipe being down, no suspicions were aroused, till in a short time we saw she had furled her sails, raising her smoke stack, and was rapidly nearing us under steam, the American flag flying at her peak. Such was her speed, in comparision with ours, that in half an hour she had come up within half a mile of us, when she fired a lee gun, hauled down the American ensign and ran up the rebel flag. No attention was paid to the summons, and the Ariel was pushed to her utmost speed. She then sailed across our wake, took a position on our port quarter, about 400 yards distant, and fired two guns almost simultaneously, one shot passing over our hurricane deck, before the walking beam and smoke-stack, and the other hitting the fore-mast, and cutting it half away.

A body of United States marines, consisting of 126 men, passengers on board the Ariel, had been drawn up and armed; but the officers in command deemed it worse than folly to resist, as we could plainly see they were training a full broadside to bear upon us, and Captain Jones gave order to stop the ship and haul down the ensign. A boat then put off to us, and the boarding officer coming on board at once assured the passengers that none of them should be molested, and that all baggage and private property should be respected.

A NEW ROUTE.

It is stated that by constructing a canal about three-fourths of a mile in length, from Big Stone Lake to Lake Traver, steamboats from St. Paul can'd navigate b th the Minnesota River and the Red River of the North to Lake Winnipeg, a dis'ance of 700 miles! The country traversed by these rivers is surpassingly fertile, and capable of sustaining a dense population. Lake Winnipeg is larger than Lake Ontario, and receives the Sas-katch-a-wan River from the West. The Sas-katch-a-wan River is navigable to a point (Edmonton House) near the Rocky Mountains, 700 miles west of Lake Winnipeg, and only 150 miles east of the celebrated gold diggings on Fraser River, in British Columbia. The digging of that one mile of Canal, would, therefore, enable a steamboat at New Orleans to pass into Lake Winnipeg, and from thence to Edmonton House, some 5000 miles! A bill has been introduced into the Senate, which makes provision for the building of the canal.—*New York paper.*

CUBA.

Havana, Dec. 20th.—It appears that the Government at Madrid are about to send out to this island nine steamers (schooners) as soon as possible, intended expressly for an active vigilance along the coast, with strict orders to their commanding officers to carry out with decision the intentions of the Government.

MISCELLANEOUS.

At Dalst on the distended gown of a servant girl was blown against the fire place. In a moment she was in flames, and received such injuries as to cause her death soon after.

A rumour has been prevalent that the immense sums of money which General Butler, his brother, and suite, have managed to make at New Orleans in a disreputable way, will have to be disgorged.

On Friday at the meeting of the Society for the Propagation of the Gospel, the Primate in the chair, a motion was made to erase the name of the Bishop Colenso from the list of vice-presidents, but it fell to the ground.

Capt. Wynne, of the British army, river in February has been as follows: was recently arrested at Baltimore, on his arrival from Richmond on the charge of acting as an emissary of the Confederate Government. He was accompanied by another British officer who was not in the list.

The first merchant steam vessel built here has just been completed. It measures 1000 tons, and has been constructed by M Tonello, who affirms that there are few maritime places in Europe where the construction of vessels can be carried on at less expense than at Trieste —*Letter from Trieste.*

Among the many new companies that the plethoric state of the money market is creating, one of a most novel and curious nature is talked of. The object is to construct a gigantic reflecting telescope of far greater dimensions than Lord Rosse's celebrated six foot reflector, with which it is expected wonderful planetery sights will be revealed. We hope, if such an instrument be constructed, that it will be erected where the atmosphere is clear for, as we well know, Lord Rosse's splendid telescope is sadly out of place in the very misty atmosphere of Ireland.

The message from San Francisco announcing the capture of the steamship Ariel, received in this city last Saturday evening, was transmitted over the telegraphic lines from that city to New York in less than two hours—a distance of over four thousand miles. The despatch was telegraphed from Sacramento to Chicago, a distance of two thousand four hundred and fifty miles, direct—that is, without being repeated at any intermediate telegraphic station. —*New York Herald.*

Mr Buckstone is said to have cleared nearly five-and-twenty thousand pounds in 1862 alone by Lord Dundreary. Mr Sothern's services, it is believed, are re-secured at the rate of £120 a week, or a little over £6,000 a year! Mr Buckstone has re-engaged Mr Sothern for no one knows how long, and wisely too, for neither Mr Buckstone nor "any other man" can possibly distinguish the vanishing point of this attraction to the public. At present all that can be predicted is that it seems as far off as ever.—*Court Journal.*

A DISTRESS IN FRANCE.—A Paris letter in the *Independance says*—"The subscription in favour of the cotton workmen in France has not had the success which was to be desired. MM. Pereire, touched with the position of that branch of industry, has written a letter to the Emperor, proposing another mode of assistance, more efficacious and more moral. Those gentlemen propose that a loan of 15,000,000 francs should be made to the unemployed workmen, on easy conditions both as regards interest and facilities of reimbursement, offering to subscribe themselves for the sum of 3,000,000 francs. The prefect of the Seine Inferieure, being consulted by the Government upon that project, replied that it appeared to him impracticable.

LOCAL EVENTS.

FLORES ROAD.—The municipality of this town publish an advertisement calling for tenders for the repair of the high road as far as the Caballito.

CATTLE.—During the month of February the arrivals have been as follows: 9319 novillos for Salsdero 1212 mares for do, and for town consumption 7140 horned cattle, 5270 sheep, 68 pigs.

THE VASCO DE GAMA.—With a cargo of salt has been completely lost on the Brazilian coast.

PAVEMENTS.—The works of street pavement which had stopped for a time have commenced again.

The calle Suipacha is now being paved.

CENTRE RIOS PUBLIC.—The Rio Rio Bamba has commenced to haul the park lying at present in Paraná, distant for this city.

HAILSTORMS.—During the storm of Wednesday several very large hailstone fell in our city. Fortunately we believe no damage has be n done.

RECEIPTS.—The traffic on this small

EL NACIONAL.

This paper has ceased exchanging with us, probably taking as intended for them our article *penny-a-liners* of yesterday. This is very foolish as the Editor receives a decent salary $4,000 per month, although we should be sorry to pay so high for a gentleman whose forte seems "local events."

Estancia Nueva Alemana.

Near Higueritas B. Oriental.

We beg to advise our friends, that the sale of 1 lot of rams will begin on the 20th inst at above mentioned place.

These rams of different classes to suit purchasers, are all of guaranteed breed sound and young.

Steamers are leaving B. Ayres on Wednesday and Saturday for Higueritas, where horses and also carriages can be obtained to carry passengers to the estancia within 2—2 1/2 hours.

A vessel leaves monthly every week for B Ayres and we are able to deliver all rams bought of us free of charges in B. Ayres.

Enquire at the Estancia or at Mr. F. Prange nenos Ayres calle Tacuarembo No. 174 or calle Tacuari No. 436. M. 6 2c.

For Sale

One thousand fine merina sheep, within two leagues of Moreno. They are in the best of order and can be delivered at once.—Apply to

MERCHANTS SAVING INSTITUTION

ASSURANCE.

Consumers of ink.

The undersigned beg to inform the highly respected community of this city and the country, that he has established an

INK MANUFACTORY.

No. 50, Calle 25 de Mayo.

And is prepared to sell at good Inks, as any made in any part of the world, and warranted to return its beautiful jet black color which it has at the moment when used on the Pen, at less than the same can be bought at any other house.

People under the impression, that they pay their $20 mje for a quart bottle of English Ink, can have the same proved, that most of the Ink sold by English, is of a very inferior quality, and imposed upon the public as such. But I am not ashamed to put my own Name on the labels, being fully convinced that my Ink is of a much superior quality, and possesses more virtues than most of the Inks.

I.—Is a very rich black at the moment when used.

II.—Retains its color.

III.—Runs freely off the pen.

IV.—A preserver of the eyes to those, who have much to write at night, because they need not so force their eyesight, to see what they have written.

For the reasons explained, I hope that any prejudice generally entertained against Home Manufacture will be set aside, and all I ask is, to try the same when will be a benefit to the buyer, and the country, in assisting Home Industry.

N. B.—Orders left at the office will be punctually attended to and delivered free of any charges.

R. Steenbock.

AMBER TEETH SETTING.

156—*Calle Cuyo*—156.

Charles Lyon has to-day a new invention, amber, which is found superior to every other made, Recommendable itself to the great merit of not loosening the gold, which requires springs. A set of teeth in amber, after two days, serves for mastication, speaking, and lasts a life time. My collection of artificial teeth is very fine, and cannot be distinguished from a natural set. I will also clean teeth with great care.

I have a number of instruments for extracting roots, & for sawing firewood Pruning Sheers, Ox Yokes,
Store Trucks, Stone Hammers
Market or Cane Knives,
Paint Mills,
Corn and Coffee Mills,
Bark Mills, Wheat do

SAN MODESTO y REYSIG,

ENGINEERS, MILLWRIGHTS, SMITHS, &c.

117—PASEO DE JULIO—117

BUENOS AYRES.

SAWS.—SAN MODESTO begs to announce to the public that he has erected Patterson's well-known Saw Mills, on the above premises, & is now prepared to supply Thomas Moore, and Lindley in the Province of Buenos Ayres.

Wood pinners, stuffers, and for making machine work and general purposes. Circular saws for cutting wire fences, wire rollers, &c.; he has also taken the agency for the sale of Patterson's well-known saws, which he can guarantee to be of the best quality, and to cut more than double the number of planks that any other saw will cut before requiring to be sharpened. The price of these saws is as follows:—

No. 1 saw, 6 feet diameter, 10 gauge, $ 60 pap
" 2 " 5 " 10 " 50 "
" 3 " 4 " 10 " 40 "

The price does not include the cost of transit, which will be paid by the purchaser. Saws can be had of proportionate size to the above, if required. Saws will be sent to any part of the country, and if they do not cut as stated they may be returned at the expense of the purchaser.

—

COLEGIO ANGLO-PORTEÑO

CALLE CUYO 293

This school has been established for several years, and is well known to the public.

No pains are spared to make the place of instruction attractive to the pupils, and the instruction sound and profitable.

Patrons are respectfully invited to visit the school during the month when the monthly reports of progress and conduct are read.

The English, Spanish, and French languages are carefully taught by skilful instructors, and every branch of useful or ornamental education may be pursued in either of these languages.

French and drawing are taught under school hours. Also an afternoon class for fancy work four times a week.

Day pupils can be received at any time, and a few could be accommodated as boarders or half-boarders.

Sept. 29th,
